

## TM-U295: EPSON's smallest flat bed printer offers huge possibilities

The compact, space-saving design of the TM-U295 has been realised through the use of the EPSON Shuttle Printing Technique, which makes it possible, despite the printer having tiny dimensions, to print any type of slip, such as vouchers or cheques, reliably.

The high-level of requirements of a slip printer are derived from the variety of various slip forms, they are often different in terms of the font orientation and the change of print direction on the same sheet, different font sizes and also set ranges for entries on the respective form. The TM-U295 provides the following options: over-head printing, up to four character heights, positioning over tables and also what is known as "Page Mode".

Amongst other features, this provides for four different print directions and also the precise positioning within the defined page. It is therefore easy to print precisely into set fields on a slip. The Page Mode also supports a page memory, which allows the individual print element (text or graphic) to be positioned precisely and which only activates the printout after the page is complete. Thus, software development to support various slip types is extremely simple.

Other functions are also offered which are generally important in a POS environment; the control of up to two cashdrawers and also checking or constant recording of the printer and paper status and also either front or back slip output.

*TM-U295 flatbed receipt printer*

*The smallest printer is available also in EPSON dark grey*

## Features of TM-U295

## Your Benefit

Small footprint, compact Design	Saves space and gives flexibility
Shuttle Printing Technology	Enables the small housing, supports various types of slips, Excellent print quality on copies as well, enables very low printing costs
Comfortable to operate	Avoids failures when inserting slips, enables shorter training times and saves costs
Exact head positioning in „Page Mode“	Easy and quick software development
Excellent MTBF and MCBF values	The high reliability results in a low error ratio and avoids failures of cash systems due to printer problems
Auto-status-back function	The printer gives valuable information about status of paper roll, cover and others; reduces programming time and costs
Smooth and functional housing	All Components are easy accessible and to clean
Easy change of ribbon cassette	Time saving at the POS and error-free change of ribbon as well as a short training period of the cashier staff

## Features of TM-U295

## Your Benefit

Excellent MTBF and MCBF values	The high reliability results in a low error ratio and avoids failures of cash systems due to printer problems
Built-in drawer kickout interface to connect up to two drawers	Saves an additional interface for the cash drawer within a system; Two drawers make handling of different currencies easy
Available in two colours	Fits to most of the actual types of registers
Supports ESC/POS operating system; the standard code for POS-printers	Ensures compatibility with all EPSON POS-printers and peripherals; offers flexibility for future expansions
Free-of-charge OLE/POS - OCX printer software for Windows	OCX printer software for application development support reduces the time period for application development
An EPSON product	The performance of a strong partner, wide experience and support, compatibility to all EPSON peripherals

## Technical Data EPSON TM-U295

<b>Print method</b>	Shuttle Dot Matrix, 7 pin
<b>Fonts</b>	7x7 or 7x5
<b>Characters per line</b>	42 or 35, (65 mm)
<b>Character size mm</b>	1,6(W) x 2,9(H) / 1.3(W) x 2,9(H)
<b>Characters per Inch</b>	13,5 or 16,2
<b>Interfaces</b>	<ul style="list-style-type: none"> <li>• RS-232 / parallel</li> <li>• cashdrawer</li> <li>• AC-adapter</li> </ul>
<b>Receive Buffer</b>	512 byte or 35 bytes (dip-switch)
<b>User defined memory</b>	Download character
<b>Print speed</b>	2,1 lps
<b>Print width</b>	65 mm
<b>Paper width</b>	80(W) x 69(L) to 182(W) x 257(L)
<b>Paper thickness (mm)</b>	0,09 to 0,25 (0,22 with 2 ply paper)
<b>Inked ribbon</b>	ERC-27
<b>Power consumption</b>	0,6 A
<b>Power supply</b>	PS-180
<b>Cashdrawer</b>	2 cashdrawers can be driven
<b>Reliability</b>	MTBF: 180.000 hrs.. MCBF: 7 million lines
<b>Dimensions (mm) and weight</b>	180(W) x 190,5(D) x 101,5(H), 1,6 Kg
<b>Colours</b>	„EPSON cool white“ or „EPSON dark grey“
<b>Standard features</b>	<ul style="list-style-type: none"> <li>• Integrated 'Auto-status-back' function (ASB)</li> <li>• TOF and BOF-sensors</li> </ul>
<b>Options</b>	<ul style="list-style-type: none"> <li>• DM-D customer display</li> <li>• PS-180</li> </ul>
<b>EMI standard</b>	CE mark, EN55022 class B, EN55024
<b>Safety standard</b>	EN60950

## About LOGISCENTER

Logiscenter is the leading provider of automatic identification and data capture equipments. Our products include barcode printing and reading devices, mobile computing devices, wireless access points, identification cards, and consumables.

## Reasons to work with us

**Our customers come first.** Our objective is not only selling our products but also holding a long-lasting relationship with our customers, based on the benefits and advantages we create for you and your company.

**The best brands.** We offer products from the best manufacturers worldwide.

**Expert technical support team.** Our support staff are experts in the products we sell. But not just the products, they can tell you the best solution for your particular problem or need.

**Largest stock.** We have a permanent stock of more than 60,000 products.

**Same-day shipping.** For all orders placed and confirmed before 16:00 on working days.

**Best prices.** With Logiscenter, you can be sure that you are paying a fair price for your products, we will not overcharge you.

**Easy returns.** Damaged or defective products can be returned easily, for an exchange or reimbursement.
