

TSP100LAN

It's All In One Box

Finally, an easy way to connect to your network!

Again, a first in the POS industry: A dedicated Ethernet printer, the TSP100LAN. The TSP100LAN brings all the attributes of the TSP100 including all parts and software being included in one box coupled with Ethernet connectivity! Now you can easily connect the TSP100 to your network. Ethernet is quickly becoming one of the most popular interfaces. The advantages are incredible:

- Distance: A printer can be connected as far as 300ft away from a PC
- Connectivity: No limitation to the number of printers on the network and cables have lockable connectors
- Communication: Do not limit your hardware speed, get your printer to run on today's high-speed networks
- Reliability: Printer is connected to the network not the PC. If one PC on the network is down, the printer will still work with other networked PCs

- Mobility: Ethernet Printers can be moved on the network without any re-setting

And The TSP100LAN brings you even more....

The TSP100LAN printer includes an "Error Reporting Feature" which indicates if there has been a lost network connection by flashing its "error" lights. The "ready" button not only tells the user that the printer is on, but also if it has paper and if it is operating correctly. It will also now tell the user if it has a "real" connection to the host computer.

The TSP100LAN also features "Real Time Status" alerts for the cover being open or paper being out. Now, due to the TSP100LANs connectivity, any PC on the network will be able to see the status of the printer.

*RPM: Receipts Per Minute

Visit www.futurePRNT.com/en/performance to learn more.

- **High Speed Throughput: 22RPM**
- **Easiest Ethernet Setup in the Industry**
- **Real Time Status and Error Report Alerts**

- **Windows®, Linux™ and Mac OS X Drivers Included**
- **Revolutionary futurePRNT Software Included**
- **Certified by Major POS Software Providers**

About LOGISCENTER

Logiscenter is the leading provider of automatic identification and data capture equipments. Our products include barcode printing and reading devices, mobile computing devices, wireless access points, identification cards, and consumables.

Reasons to work with us

Our customers come first. Our objective is not only selling our products but also holding a long-lasting relationship with our customers, based on the benefits and advantages we create for you and your company.

The best brands. We offer products from the best manufacturers worldwide.

Expert technical support team. Our support staff are experts in the products we sell. But not just the products, they can tell you the best solution for your particular problem or need.

Largest stock. We have a permanent stock of more than 60,000 products.

Same-day shipping. For all orders placed and confirmed before 16:00 on working days.

Best prices. With Logiscenter, you can be sure that you are paying a fair price for your products, we will not overcharge you.

Easy returns. Damaged or defective products can be returned easily, for an exchange or reimbursement.
